Printable Ring Size Chart

IMPORTANT — Print this page at 100% / "Actual Size". Do NOT use "Fit to page" or "Shrink to fit", or the circles below will be the wrong size.

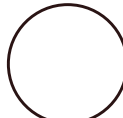

How to use: place a ring you already own on top of each circle below — the circle whose INNER edge matches the ring's inner edge is your size. You can also wrap a strip of paper around your finger, mark where it overlaps, then measure that length with a ruler and compare it to the circumference (mm) values below.
